

**SUPPLEMENTAL DECLARATION FOR REISSUE PATENT APPLICATION
TO CORRECT "ERRORS" STATEMENT
(37 CFR §1.175)**

Attorney Docket No. : 3419-032151
First Named Inventor : J. Michael Teets
Application Number : 10/712,917
Filing Date : November 13, 2003
Art Unit : 3746
Examiner Name : Charles Grant Freay

I/We hereby declare that:

Every error in the patent which was corrected in the present reissue application, and which is not covered by the prior oath(s) and/or declaration(s) submitted in this application, arose without any deceptive intention on the part of the applicant(s).

I/We acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR §1.56.

I/We verily believe the original patent to be wholly or partly inoperative or invalid, by reason of the patentee claiming more or less than he had a right to claim in the patent. At least one error upon which reissue is based is described below.

Specifically, it was discovered that the legal scope of protection afforded by the claims of the patent was not as great as it could have been if unnecessary features and details of the invention had not been included in the claims. In particular, claim 1 includes a proportional solenoid associated with the fuel metering valve. The addition of this proportional solenoid unnecessarily narrows the claim.

I/We hereby declare that all statements made herein of my/our own knowledge are true and that all statements made on information and belief are believed to be true; and further that

these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. §1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Name of Sole or First Inventor:		
Given Name (first and middle)	Family Name or Surname	
J. MICHAEL	TEETS	
Inventor's Signature: <i>J. Michael Teets</i>	Date: <i>9/3/07</i>	

Name of Second Inventor:
